City Futures - Collaboration between Science and Society for Sustainable Solutions

Sustainable city futures need experimentation and innovation developed through collaboration between academia and social actors. On Thursday 11 October 2018, the IIIEE is organizing a City Futures conference in Lund, Sweden. The aim is to bring together academia, municipalities and regional actors within business and industry to discuss how to strengthen the collaboration between science and policy for sustainable solutions.

KEYNOTE SPEAKERS
Prof. Harriet Bulkeley from Durham University
Mr. Jonas Kamleh, Deputy Head of Urban development and Climate, City of Malmö
Dr. Cathy Oke, Knowledge Broker at Melbourne University and First Vice President for ICLEI - Local Governments for Sustainability.
