

IIIEE Strategy 2020 - 2024

"We want to achieve a future in which we have accelerated the transitions to climate neutral and resource-efficient economies."

IIIEE Strategy 2020 - 2024

WHAT WE WANT TO ACHIEVE - OUR VISION

A future in which the IIIEE has accelerated the transitions to climate-neutral and resource-efficient economies.

HOW OUR WORK CONTRIBUTES TO OUR VISION - OUR MISSION

The IIIEE produces and shares actionable knowledge for sound decision making at all levels, from the local to the global, and educates future leaders and change agents.

WHAT WE DO AND WHERE WE CONCENTRATE OUR EFFORTS – OUR FOCUS AND OBJECTIVE

We are committed to produce rigorous, impactful, and solution-oriented interdisciplinary *research*, focused on Business Management and Practice, Consumption Governance, Urban Transformation, and Policy Interventions to catalyse climate neutrality and resource efficiency.

We recruit students from all over the world with various disciplinary backgrounds. With a dual focus on management and policy, we *educate* future leaders and change agents with the knowledge, skills, and networks to drive sustainability transitions.

In order to facilitate excellent research and outstanding education we will:

- support our core activities with effective systems and professional management, administration, and communication that we all contribute to;
- continuously improve our processes to capitalize on funding opportunities;
- create a working environment that is able to attract excellent international students and staff and provides opportunities for all to grow during their journey.

WHAT WE STAND FOR - OUR VALUES

We uphold the values of Lund University. The IIIEE especially emphasizes three core values:

- We have the *courage* to raise new questions and pursue new paths.
- We actively seek the *inclusion* of diverse people, ideas, and perspectives in our research and education.
- We conduct our research with *integrity* so that it is possible for others to trust our methods and the results produced.

HOW WE WORK

We seek to identify and incorporate pathways to impact from the beginning.

We see research and education as mutually reinforcing.

We enable close interaction between students, staff, and alumni to create a unique community and strong networks of value to all of us.

We are passionate about interdisciplinarity, multiculturalism, and diverse perspectives as the foundation of our work.

We proactively collaborate with multiple actors from industry, society and academia.

We strive for a healthy work-life balance and foster a friendly and supportive community.
